

Financial Education Programme for Youth

- A 2-session programme tailored to cater to the knowledge requirements, needs & school hours of the youth studying in night colleges/schools
- Covers the concepts of savings, budgeting, future planning & information on different formal financial products and their uses.

- Our objective:

-to guide youth towards prudent financial management to reach future goals

-to instill the mindset of opting for financial products only after careful consideration of their terms and conditions

-to link them with the financial products and services available to them.

Highlights of the programme

- The sessions are conducted during the school hours within the school/college premises itself.
- The sessions offer opportunities to learn basic skills related to spending, budgeting, savings and disadvantages of borrowing from informal sources.
- A special module on 'needs', 'wants' and 'aspirations' and how to distinguish and prioritise between them is also covered.
